

Lynam Garden Furniture will proudly be providing the playground again this year at the National Ploughing Championships. Pictured here is the fantastic prize for a competition we are currently running on Facebook to gift to a local Crèche, Community Centre, Play School or Montessori School. This wonderful prize is available to view at the National Ploughing Championships this year. This 'School Bus' is one of our many products that supports learning and development through role play

which is a running theme within the Aistear Framework under the National Council for Curriculum and Development. Many of our play units inspire and reinforce Aistear Themes. Here at Lynam Garden Furniture, we manufacture everything ourselves on our home farm, which started out in the sheep shed in the depths of the recession. From the seeds of hard work through these difficult and trying economic times, we have triumphed and grown a successful family business that fosters creativity, innovation, and community spirit. This is my 5th year exhibiting at the Ploughing Championships and this show has been a contributing factor in the success and growth we have enjoyed.
