

CFMOTO Ireland showcase their exciting new range of ATV's and UTVs at Ploughing 2024 for the sixth year running!

This year will be CFMOTO's sixth year at ploughing in the same stand location as previously, and this year is one to be eagerly anticipated! CFMOTO have just launched the Generation 3 CFORCE 1000 Touring – the most technologically advanced machine featuring unrivalled new specs. This machine is paving the way for the future technology of CFMOTO's agricultural models. The machine will be displayed on the CFMOTO Stand 313, Block 1, Row 20.

CFMOTO supply high quality ATVs and UTVs to the agricultural, land management, forestry, gamekeeping and equestrian industries of Ireland. Their quads and side-by-side machines offer top spec reliability at the best price on the market.

They have taken the global market by storm and are now Europe's best-selling ATV brand. This is since farmers and landowners are realising that there's no need to spend such vast sums on a product from the big brands when there is a tried and tested, often higher spec'd and very reliable product available for less.

CFMOTO Global invest heavily in research and development to stay ahead of the competition and to continue to grow. They are constantly exploring new technologies and materials to improve the performance and reliability of their machines.

The company CFMOTO Ireland is a subsidiary company of Quadzilla Ltd – a family run business formed in 2004 importing ATVs from China and Taiwan under the Quadzilla brand.

Quadzilla have been importing CFMOTO machines from the factory in Hangzhou, China for over twenty years, and so have been on the journey with the factory from the very beginning.

Company Director, Harry Hinkley says "We at CFMOTO are looking forward to exhibiting our range of quads and side-by-sides at Ploughing again this year. It's a fantastic opportunity for our network of Irish Dealers to come together on the stand and meet old and new customers face-to-face. We look forward to showcasing our products for visitors to see and feel the quality of our machines for themselves. "

Some of CFMOTO Ireland's best-selling products aimed at the agricultural and farming market include: -

- CFORCE 450 ATV <https://www.cfmoto.ie/atv/2024-cforce-450/>
- CFORCE 520 ATV <https://www.cfmoto.ie/atv/2024-cforce-520/>
- CFORCE 625 ATV <https://www.cfmoto.ie/atv/cforce-625-eps/>
- UFORCE 600 UTV <https://www.cfmoto.ie/side-by-side/2024-uforce-600/>
- UFORCE 1000 UTV <https://www.cfmoto.ie/side-by-side/uforce-1000/>
- UFORCE 1000 XL UTV <https://www.cfmoto.ie/side-by-side/uforce-1000-xl/>

CFMOTO doesn't stop at farm machinery, if you're looking for some serious fun, then check out the ZFORCE sports side-by-side range. All CFMOTO products come with a front winch and towbar as standard so you could slip the ZFORCE through as a farm machine "for work purposes..."

Stop by and say hello on the stand, tell them you saw this article and get a free CFMOTO cap!
